

VERA CRUZ TO BE EVACUATED NOVEMBER 23

Mexican Authorities Comply With All Requests of the United States

VILLA TO ATTACK TAMPICO

Army Moving South and Battle Expected to Take Place at Queretaro Soon

WASHINGTON, Nov. 13, Monday. November 23, was fixed tonight as the date for the evacuation of Vera Cruz by the American forces.

Secretary Bryan issued this announcement. "Since both General Carranza and the convention at Aguascalientes have given the assurance and guarantees we requested, it is the purpose of the administration to withdraw the troops of the United States from Vera Cruz on Monday, November 23."

"All the persons there for whose personal safety this government has made itself responsible have left the city. The priests and nuns who had taken refuge there, and for whose safety fears were entertained, are now on their way to this country."

Came as a Surprise. This statement was given out after a long conference between Mr. Bryan and President Wilson. It apparently was unexpected with surprise in some of the quarters. The general understanding has been that the evacuation would be delayed indefinitely pending the result of the settlement of the various Mexican claims in the latest civil war now in progress.

Secretary Bryan declined to add to the statement, saying that it would be made public by the war department tomorrow. Secretary Bryan had nothing to say, and to just the authority of the post of Vera Cruz. It was a surprise, however, that the United States throughout the Mexican difficulties has dealt with the authorities actually in control of the territory involved, the city would be turned over to an agent of General Carranza, commanding the Constitutional forces in the state of Vera Cruz.

Who Gets the Money? So far as is known, there has been no final decision as to when and to whom the more than one million dollars of Mexican customs money now held by the United States shall be paid.

Both Carranza and the Aguascalientes convention have given guarantees that customs duties collected at Vera Cruz will not be reimposed. In view of the complications which might arise, however, in the event Carranza were driven from power by Villa's army supporting General Gutierrez, the convention's new provisional president it has been suggested that payment of the money might be withheld pending a clarification of the situation.

Mr. Bryan's statement gave the first news of the removal of the priests and nuns from Vera Cruz. With their departure the only persons other than soldiers, marines and officials left in the Mexican port with a claim on the United States for protection are Mexicans who have been in the employ of the Americans. Assurance that these men would not be punished was one of the conditions of evacuation to which both of the warring factions agreed.

Pine army transports are waiting at Vera Cruz to bring away the troops, and Brigadier General Fanning has reported that the evacuation can be completed within 48 hours after the order is given. The garrison numbers about 8,500 men, including the First brigade of infantry and marines.

Villa to Attack Tampico. General Villa already has taken the offensive against General Carranza, according to official advisers reaching the United States government today.

Villa's plan of campaign, the first strike of which was accomplished in the occupation of the city of San Luis Potosi, calls for an immediate attack on Tampico, second in importance to Vera Cruz as a seaport and base from

(Continued on Page Two)

BELGIANS FIRING 700 SHOTS A MINUTE INTO GERMAN LINES

This photograph shows the Belgians at work at one of their rapid-fire guns, which send about 700 shots a minute into the German ranks. It was taken during the operations in Flanders. The use of these guns, even more than the cannon in the war, has been the cause of heavy mortality.

UNCLE SAM HAS BECOME GIANT AMONG NATIONS

HOW THE COUNTRY HAS GROWN IN 50 YEARS

Population Now More Than 100,000,000; Same Increase in Everything Else

WASHINGTON, Nov. 13. The report on the growth of the United States during the last half century was shown in a report issued today by the bureau of economic and social statistics. While the report is for the period 1860-1910, the figures are so recent that they are practically up to date.

After pointing out that since 1860 the population of the country has more than quadrupled, being now more than 100,000,000, the report says:

"In the same period, however, the foreign-born population has grown from 1,000,000 to 12,000,000, and the total population of the United States from 39,000,000 to 100,000,000."

National Wealth Increase. National wealth has increased from \$1,000,000,000 in 1860 to approximately \$140,000,000,000 in 1910. For example, the value of the land has increased from \$1,000,000,000 to \$100,000,000,000, and the value of the buildings from \$1,000,000,000 to \$10,000,000,000.

Deposits 100 Times More. In 1860, deposits in savings banks were \$25,000,000; today the number is \$2,500,000,000, or 100 times as much.

The increase in the number of farms is also noteworthy. The value of farms and farm property increased from \$4,000,000,000 in 1860 to \$45,000,000,000 in 1910; the value of manufactures from \$1,000,000,000 to \$20,000,000,000; and the number of miles of railway in operation from 9,000 in 1860 to 258,000 in 1910.

In the last quarter century the number of passengers carried has increased from 49,000,000 to 1,000,000,000, and the volume of freight from 1,000,000,000 to 1,000,000,000,000.

HENRY SPENT NOTHING IN RECENT ELECTION

WASHINGTON, Nov. 13. Representative Henry of Texas today reported he neither received nor spent anything in the campaign for reelection.

GOV. AMMONS SAYS HIS SUBORDINATES TO BLAME FOR STRIKE

Governor's Went Authority to Remove Recalcitrant State Officials

MADISON, Wis., Nov. 12.—Complaint that governors, as a rule, do not have sufficient power to remove recalcitrant state officials, and were, therefore, subject to adverse criticism because of the help of underlings, was voiced today at the governor's conference by Gov. Elias M. Ammons of Colorado.

Governor Ammons declared that recent industrial difficulties in Colorado had shown the state officials in a bad light. He said that the state officials were not doing their duty, and that the governor was forced to remove them. He said that the state officials were not doing their duty, and that the governor was forced to remove them.

Allied Aeroplane Squadron Defeats Germans in Clouds

PARIS, Nov. 13.—A thrilling encounter between eight aeroplanes, four German, two French and two British, occurred today in the vicinity of Ypres. The German machines were destroyed by the allied forces.

The Germans were seen approaching to reconnoiter the lines of the allies. The French and British pilots immediately ascended to meet them. For some time the aircraft circled about each other, rising and descending, while machine gun scattered bullets among them.

JAP FLEET TURNS OUT TO BE GERMAN SQUADRON

VALPARAISO, Nov. 13.—The Japanese fleet reported to have been seen off the Chilean coast, appears now to have been the German squadron which was cruising near Valparaiso. The German fleet was seen by the Japanese.

German naval officers deny that any action besides the battle which occurred between German and British warships on November 1 has taken place off Chile. It is expected here, however, that the English and German fleets may at any moment meet in another engagement.

U. S. MAY URGE SOUTH AMERICA TO STAY NEUTRAL

GOV. BRYAN IS STUDYING THE PROBLEM

Form Regulation of Wireless Censorship

WASHINGTON, Nov. 13.—Secretary Bryan today said he would examine the problem of neutrality in South America. He said that the United States was studying the problem of neutrality in South America.

The secretary remarked that he had decided whether to call directly on the United States to take any action, there is an implication in them that the American government might involve the South American countries in the war.

Urge Uniform Regulations

In the South American diplomatic circles, it was decided today that the United States should urge uniform regulations of wireless.

The articles of the Hague convention and the Declaration of London, which represent the international law, do not deal specifically with the use of wireless. It has been developed in the present war.

NEW GOVERNMENT IS ESTABLISHED IN HAITI

WASHINGTON, Nov. 13.—The United States was notified officially today of the establishment of a new government in Haiti, with President Thomas, a successful revolutionary against President Zamor, as president.

PRES. WILSON MAKES NEW RULES GOVERNING PASSPORTS

WASHINGTON, Nov. 13.—To guard against the use of American passports abroad by spies posing as Americans, President Wilson today signed new rules governing the issuance of passports.

EAST PRUSSIAN FRONT NOW IS CENTER OF GRAVITY IN EUROPEAN STRUGGLE

Russian Wave Sweeps Kaiser's Legions Back; Austrians Evacuate Eastern Galicia, Fleeing Before Czar's Mighty Army

RUSSIANS CAPTURE THREE IMPORTANT TOWNS IN GALICIA

Victory Follows in Wake of Triumphant March of Muscovite Army

VIENNA, Nov. 14 (Saturday).—It is officially announced that the Russians have occupied Tarnow, Jaslo and Krosno, three towns in Galicia.

The official statement says: "Yesterday afternoon there were no important events in the northern theater of war."

"The enemy has marched into Tarnow, Jaslo and Krosno."

"The number of prisoners taken up to yesterday were 867 officers and 92,727 men."

"In the southern war theater, the enemy continues to retreat from Kecalija and Valievo eastward."

The towns of Tarnow, Jaslo and Krosno are in the western part of Galicia. Tarnow has a population of 31,000; Jaslo is 30 miles southeast of Tarnow and has a population of about 7,000, while Krosno is 13 miles southeast of Jaslo, on the river Wislak, and has about 5,000 population.

FALLS FOUR STORIES DOWN APARTMENT HOUSE SHAFT

Paul Chamberlain, Springs Bay, Seriously Injured in Accident at Los Angeles

Paul Chamberlain, son of Dr. F. C. Chamberlain, a dentist at Colorado Springs, was seriously injured Wednesday when he fell four stories down an elevator shaft in an apartment house in Los Angeles.

WHOLE COUNTRY SAID TO BE IN FLAMES

PARIS, Nov. 13.—The whole of Belgium is said to be in flames, according to a report received today from the Belgian government.

Silesians Are Fleeing Before the Russians

LONDON, Nov. 14 (Saturday).—The Copenhagen correspondent of the Daily Mail sends the following under date of Thursday:

ALLIES IN WEST RECAPTURE DIXMIDE AND BREAK DOWN BARRIERS SET UP BY GERMANS; Tide Has Turned in Favor of the Anglo-French Armies; England Learns Cost of War

LONDON, Nov. 13.—While the battle in West Flanders continues to hold public attention because of the desperate character of the fighting, the number of men engaged and the territory at stake, military men now look upon East Prussia as the center of gravity of the war.

In the latter field of operations a tremendous battle is developing. The Russians are pushing vigorously a great enveloping movement. They are engaged with the Germans along a wide curve of 150 miles from Stalluponen, in the north, through Goldap and Kruglanken, which is well within the tangle of lakes, down to Soldau in the southwest.

Military observers say the Germans apparently have checked their retreat in Poland, and by counter-attacks are endeavoring to create a diversion. They say, however, that the Russians are not to be turned from their plan, which is believed to be an attack on Danzig. They argue that the Germans either must allow East Prussia to be overrun a second time or bring up reinforcements, and that they can hardly weaken their army along the Polish frontier for that would leave Posen and Silesia open to invasion. The allies naturally are hoping an effort will be made to relieve East Prussia at a sacrifice to the German armies in Belgium and France.

GERMANS HAVE ADVANTAGE, BEING IN OWN COUNTRY

While fighting in their own country, the Germans will have the advantage over the Russians, as they have a network of railways to move their troops quickly, and they use motor cars to transport their equipment. Military men are watching operations in this region with deep interest.

West Flanders and Belgium do not seem to have improved their position in any marked extent. In fact, an unfavorable report from the north of France, though says they have again been driven back, which they look to be a serious matter.

Accounts from this part of the world are contradictory, however, that the only thing clear is that the Russians are pushing vigorously a great enveloping movement.

AUSTRIANS EVACUATE EASTERN GALICIA

The German attack on the Austrians, and the evacuation of Eastern Galicia, is a serious matter for the Austrians.

Germans Warned Not to Return Alive in Charge on Dixmide

LONDON, Nov. 14 (Saturday).—Accounts of the German entry into Dixmide, received through the German lines, say the British there was a battle, but the British were not able to capture the town.

Troop Ship on Fire, 500 Landed Safely

LONDON, Nov. 13.—A dispatch to the Exchange Telegraph company from Rome says that the steamship City of Rome, which was on fire, has been rescued, and the 500 men on board have been landed safely.

NEW GOVERNMENT IS ESTABLISHED IN HAITI

WASHINGTON, Nov. 13.—The United States was notified officially today of the establishment of a new government in Haiti, with President Thomas, a successful revolutionary against President Zamor, as president.

Holy Places of Jews, Moslems and Christians Now in War

Romantic Possibilities Created by Embroidment of Ottoman Empire: Puts Religion Behind Guns; Zeal for Faith Will Be a Factor in Fighting in the Near East; The Strange Medley of Creeds

BY THE RELIGIOUS RAMBLER

Of a sudden the shrine cities of all the faiths of America and Europe and western Asia have become involved in the present world war. Turkey, containing not only all the empire of antiquity but also the birth places of the Jewish, Christian and Moslem religions

Mohammedanism, that the holy places, of which Mecca and Medina are chief, are imperiled by the Christian allies. On the other hand, the Russian and, in lesser degree, the French, girded, are fighting for the conquest of Constantinople and Jerusalem. The average American, who is a bit hazy upon his geography and religious history, will be interested to take a fresh look at the claims and faiths which may play an important part in settling the war.

Three Creeds in David's City.

Crucifix of all the shrine cities, and probably a heathen "high place" long before King David of Israel wrested it from the Jebusites. No other city on earth has so long existed under the same name as Jerusalem, for ancient records show that in the year 1500 B. C. the city of Jerusalem was first settled by the Hebrews.

Highest of all spots on earth to the Jews, the capital of their people's anarchy, and till the fall of the temple of Solomon, the city of the Jews, Jerusalem is sacred to the Christians, whose scripture calls heaven the New Jerusalem. It is in Jerusalem that the founder of the Christian faith uttered many of his teachings, and it was there he underwent his passion, crucifixion and resurrection.

For the Moslems, the city is one of the holiest in the world, and it is here that the prophet Mohammed is believed to have been born, and it is here that he is believed to have ascended into heaven.

Moslems, Christians and Jews have fought for the city of Jerusalem for centuries, and it is now the scene of a new struggle.

alpha. The name of one of the streets of Jerusalem is the Temple of Solomon. The temple was built by King Solomon, and it was here that the Jewish people worshipped for centuries.

Where Religious History Was Made.

The extent of the Turkish empire is not only vast, extending from the Indian ocean to the Red sea and the Black sea and both sides of the Mediterranean, but it is most notable for the historic character of its soil. All the empires of the past, from Babylon to Macedonia and Rome, whose glories fill the pages of history, fell within the confines of what is today Turkey.

So, not only Jerusalem, but also Mecca and Medina, and the city of the prophet Mohammed, are all within the Turkish empire. The city of Mecca is the birthplace of the prophet Mohammed, and it is here that he is believed to have been born, and it is here that he is believed to have ascended into heaven.

In Mystery Cities of the Desert.

As Islam was born in the desert, and its founder, Mohammed, was a camel driver, its sacred cities are in remote desert places. Mecca, the birthplace of the prophet, and the spot toward which all Moslems pray, is situated in the Arabian desert, about 400 miles from the Red sea. The city is reached by caravans, and it is here that the Moslems gather for the annual pilgrimage.

The famous Meccan mosque, known as the Kaaba, is the most sacred of all Moslem shrines. It is here that the Moslems gather for the annual pilgrimage, and it is here that they perform their religious duties.

The Kaaba is a small, black, cubical building, which is the center of the mosque. It is here that the Moslems gather for the annual pilgrimage, and it is here that they perform their religious duties.

WOMEN TO CONTINUE POLITICAL ACTIVITIES

Suffrage Convention Votes to Carry on Work Before Next Congress

NASHVILLE, Tenn., Nov. 10.—By a vote of almost two to one, the convention of the National American Woman Suffrage association here late today decided that its work before congress during the coming year shall not be limited to efforts for passage of the Bristow-Mondell suffrage amendment to the federal constitution. At an earlier session, the association declared by a decisive majority that its congressional committee should not conduct campaigns against candidates in any state without consent of the suffrage associations in that state.

The action of the association on these matters settled two of the most important questions before the convention. Each had given rise to much discussion of opinion among suffragists during the last few months, and each has a significant bearing on plans for next year's campaign.

The debate on both votes was spirited and was characterized by bitterness.

Dr. Shaw Unopposed

That the opposition to Dr. Anna Howard Shaw for reelection as president of the association had been dropped was revealed when nominations for officers were submitted to the election committee. The time for presenting nominations expired at 5 o'clock tonight. Dr. Shaw is the only name on the list as candidate for president.

The list of other candidates follows: First vice president, Miss Jean Gordon, New Orleans; Mrs. Katherine Dexter McCormick, New York. Second vice president, Mrs. Desha Breckenridge, Kentucky. Third vice president, Miss Katherine B. Davis, New York; Mrs. Medill McCormick, Chicago. Corresponding secretary, Mrs. Orton H. Clark, Michigan; Mrs. Jeanette Hankin, Montana. Recording secretary, Mrs. Susan W. Fitzgerald, New York; Mrs. Anne H. Martin, Nevada. Treasurer, Mrs. Henry Wade Rogers, Massachusetts. First auditor, Mrs. Helen G. Miller, Missouri. Second auditor, Mrs. Nellie N. Somerville, Mississippi; Miss Zona Gale, Wisconsin. Election of officers will be held next Monday.

GERMAN PROFESSORS ARE KILLED IN BATTLE

BERLIN, Nov. 13.—The newspapers printed yesterday and today the obituary of four university professors who have just fallen in battle showing how largely university people are participating in the active fighting.

The fallen men are Heinrich Hermeink, professor of church history at Kiel; Ernest Heiderich, professor of art and history at Strassburg; Ernest Stadnick, professor of German philology at Strassburg; and Professor Fricke, the head of the Hanger-Muhsen forestry academy.

Count Matthias, Brudzewo Mielzynski, the ex-member of the reichstag who shot his wife and nephew in his castle near Graetz in February, has received the decoration of the Iron Cross of the first class for valor in the battle of Augustow.

The Mielzynski tragedy, the result of a love affair, caused a sensation at the time of its occurrence. The count was tried on a charge of manslaughter, but was acquitted.

SON-IN-LAW OF KAISER RETURNS TO THE FRONT

PARIS, Nov. 13.—A dispatch to the Temps from London says that Prince August, Duke of Brunswick, son-in-law of Emperor William, who was reported to have been wounded in action, left Brunswick on November 5 and returned to the front.

Don't Worry—Eat

Memphis, Tenn.—Mrs. Emma D. Looney, of this place, says: "I suffered misery for nearly eight years, but since taking Cardui I am much stronger, and I haven't missed a single meal. ENGLAND HAS PLENTY OF MONEY TO CARRY ON WAR, SAYS PAISH

Contents Country Can Pay for Conflict Out of Savings Already in Bank

PHILADELPHIA, Nov. 13.—Sir George Paish of London, in an address at the annual banquet of the Investment Bankers' Association of America here tonight, declared that all financial matters that required adjustment in England as a result of the European war have now been adjusted, and "we are prepared once more to resume business in the normal way."

Although the London stock exchange is still closed, Sir George said that one of the greatest obstacles to its resumption of business had been removed and that he hoped to see it reopened in the near future.

"The stock exchange," he said, "was caught up with loans to bankers of nearly \$20,000,000 sterling, and recently an arrangement has been made to continue these loans as long as it is necessary, even if beyond the duration of the war, and to provide members of the stock exchange with fresh funds, in order that they may carry on their business as usual."

Plenty of Money, He Says

Continuing, Sir George said: "We are prepared to discount bills and I think in a short time you will find that we are prepared to do business in our stock markets as we usually do. There is, however, one matter that is unusual. The supply of bank money in London, I am convinced, is as great as ever, but it will be obvious to you that the supply of capital in England cannot be as great as ever, at any rate, not for outside purposes. We calculate the savings of the British nation are some 400,000,000 pounds a year. Last year we placed half those savings in foreign countries."

"We are now engaged in the great war the country has ever had to fight and it will be obvious to you that we shall need our savings to pay for that war. I am hopeful, indeed, I have strong hopes, that we shall be able to pay for that war out of our growing savings, and we shall not have to encroach upon our capital."

Can Maintain Income

"With the British nation carrying on its business as usual, there is no reason why its income should not be maintained, and if its income is maintained it will have the savings and the money with which to pay for this great war out of its income. This matter, I know, is of great importance to this side, as there is a great deal of anxiety to see you back a large amount of your securities. I think there is no serious danger of this. I think the utmost extent of the danger is that we may not be prepared to renew short term notes of various kinds, railroad notes, New York city notes and others. "You will realize that when our army gets up to a million men, and after that two million men, it is necessary that we should need all our savings and it may be that we have to ask you and others to repay the short notes at maturity. That will be, I think, if I may have put in a word with regard to the United States—a very small matter for the United States to do—a very small matter, indeed."

WAR ABOUT TO ENTER THIRD PHASE, BELIEF IN FRENCH CAPITAL

PARIS, Nov. 13.—The conviction is growing here that the period of the German strategic offensive is drawing to a close and that the war on both the western and eastern fronts is about to enter its third phase.

The present violent effort in the Tiers region, while it may have succeeded in bending the allies' line in a few places has not yet, according to either French or German reports, succeeded in breaking it and it seems impossible that the attempt can be repeated under the same conditions. Even success at this point might prove merely momentary like that at St. Mihiel on the Meuse six weeks ago.

But General Joffre, the French commander-in-chief, is fully alive to the importance of this position, and, according to an officer just returned from Ypres, that eventually has been prepared for. At Ypres and its environs, although the artillery of the Germans is formidable, that of the allies is still more so and causes fearful carnage in the enemy's trenches. The fighting in this region is largely an artillery duel with the infantry remaining in the trenches. They can only approach the enemy by boring tunnels which are converted into trenches by piercing the roof.

However important the operations in Flanders may be, they are not overshadowed by the extent and the intensity they have for the war as a whole by the eastern campaign.

COLORADO MAY GET MOOSE SANATORIUM

DENVER, Colo., Nov. 13.—Colorado, New Mexico, Arizona and southern California are being considered by the Royal Order of Moose as locations for their proposed \$2,000,000 tuberculosis sanatorium according to Charles A. McGee of San Diego, Cal., chairman of the sanatorium committee. Mr. McGee is in Denver to attend a meeting of the supreme council of the order, at which it is expected the location of the hospital will be selected.

LORD LENNOX KILLED

LONDON, Nov. 13.—Lord Bernard Charles Lennox, master in the Grenadier guards and the third son of the Duke of Richmond and Gordon, has been killed in battle, it was announced here today.

LEGISLATION KILLING RAILROADING--RIPLEY

Says Government Interferes Too Much; Roads Should Be Left Alone

CHICAGO, Nov. 13.—"Killed by government interference" might be the inscription on the tombstone of the American railroad, the first system of the world has ever known, in present conditions, continued today, was the opinion expressed at tonight's session of the Western Economic society, which convened here today, by R. P. Ripley, president of the Atchison, Topeka & Santa Fe railroad. He declared that "our present laws regulatory of railroads are a hodge-podge, in spite of intelligent administration."

President Ripley said he was in favor of government restraint but that present conditions could not continue and that the public would rightfully refuse to make investments "which the acts of the government have made uncertain."

He represented the physical valuation of railroads as a useless expenditure of probably \$25,000,000,000, the government and half as much more by the roads. He said it was difficult to see what good purpose the valuation would serve, except that it probably would serve to talk about overcapitalization. He continued:

Can't Raise Money

"Owing mainly, though not entirely, to unintelligent legislation, the railroads as a whole find themselves unable to meet the demands made on them; and it is not possible for the best of them to raise money at rates which they cannot afford to pay. This is not a development of the European war. The attack of the muckraker and the agitator had done the work before any war was declared; and the government, heading these attacks and ignoring the actual conditions, had in effect declared railroad investments unsafe."

"It will be said that mismanagement of certain properties has helped in bringing about this condition, and this is very likely. I am not apologizing for these cases, but they nearly all occurred under your laws and were by advice of counsel."

"The simple truth is that rates are unremunerative; that the end of the rope has been reached for some of the railroads; and is not far off for others. All the talk that has been given us about extravagance in operation, about facilities granted free to favored individuals and about mistakes of railroad management may be allowed for, as it is worth, and even more, and the stubborn fact remains that the public does not pay enough to warrant first-class service, and that it will have nothing less; also, that much of our trouble comes from laws that are fundamentally wrong, and that altogether our various governments, state and national, are responsible for these conditions."

Laws Are to Blame

"I could go on at great length in the incoherence of our present laws; as to the impracticable character of regulation by 49 local commissions, plus one general commission; about that impossible condition created by the duties of the interstate commerce commission, an organization said to contain 40,000 men largely engaged in saving on the railroads and not so much interested in bettering conditions as in getting conditions."

"Even admitting the fairness and ability of the commission, there does not exist a body of men which could by any human possibility transact the business of 27,000 miles of road, or which could act as an unbiased judge on cases which they had themselves developed and on which the members or their subordinates had already passed."

5,000 PRISONERS WERE TAKEN AT TSING TAU

NEW YORK, Nov. 13.—The east and west news bureaus made public today the following dispatch from Tokyo.

The formal meeting of the command-in-chief of the Japanese army, Lieutenant General Kaname and Captain Meyer Waldeck, former governor of Tsing Tau, occurred on November 12 at the Mokke barracks.

"Captain Waldeck will go on board in transport bound for Japan on the 14th. The total number of prisoners taken is 5,000. The ceremony of entry by the Japanese troops into the city of Tsing Tau is expected to take place on the 16th."

LOSS OF TWO CRUISERS 'OFFICIALLY PRESUMED'

LONDON, Nov. 13.—The admiralty announces that in the absence of further information the loss of the British cruisers Good Hope and Glasgow in the naval engagement off the coast of Chile with the German squadron on November 1, is now "officially presumed."

DOUBT DISAPPEARS

No One in Colorado Springs Who Has a Bad Back Should Ignore This Double Proof

Does your back ever ache? Have you subjected your kidneys? Backache is sometimes kidney ache. With it may come dizzy spells, Sleepless nights, tired all days, Distressing urinary disorders.

Doan's Kidney Pills have been endorsed by thousands.

Are recommended here at home.

You have read Colorado Springs equal.

Read now the Colorado Springs equal.

Renewed testimony: tested by time. Mrs. Emily McNew, 305 S. Nevada Ave., Colorado Springs, says: "It is a pleasure to confirm my former endorsement of Doan's Kidney Pills that I gave some years ago. I have taken Doan's Kidney Pills when my kidneys have been weak and they have lived up to representations."

Nice 30¢ at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McNew had. Foster-McMillan Co., Props., Buffalo, N.Y.

It's right to think about style and fit just when you're buying a Suit, but remember that the tailoring and quality determine the "stay" of the style and fit.

—Get a Harsh-Wickwire or Hart Schaffner & Marx and you'll be assured the "stay" of the style and fit until the last, and that's a good long time.

—Unequaled values, \$15 and up.

(Continued From Page One.)

on their wire entanglements in order to prevent a night surprise attack.

FRENCH PLAY JOKE ON THE GERMANS

The railroads, according to the official report, cut and tied strings to the wire and then returned to their trenches. They continually pulled these strings, which caused the Germans to keep up for many hours a constant, though ineffectual, fire. When finally the Germans ceased firing, the railroads attacked and took a number of prisoners.

At another part of the line Algerian, Tunisian and French riflemen are reported to have recaptured Ramscapelle at the point of the bayonet against overwhelming odds, after the town had been taken by the Germans from the Belgians.

Reports from the front tell of the good work being done in the Harjole field hospital on the left wing of the French army. The staff of this unique mobile hospital is composed of Drs. James M. Worcester and Archibald Strong, six assistant surgeons and six trained nurses. Among the latter is Mrs. Harjole. Owing to the proximity to the firing line and immediate treatment of the wounded, many cases of tetanus and gangrene are prevented.

RUSSIAN SAILORS MUTINY: FEAR CAPTURE BY GERMANS

PORTLAND, Me., Nov. 13.—Seven sailors on the Russian bark Thomsina, which is completing a train cargo here, mutinied today, locked the first and second mates in a cabin, drove the captain ashore and conducted a reign of terror until police reserves arrived in a naval launch.

Of fear of going to sea for fear of capture, by German cruisers was the mutinous sailors' grievance.

TROOPS USED TO ARREST MINERS AT PRAIRIE CREEK

PRAIRIE CREEK, Ark., Nov. 13.—Government troops flanked actively on the Hartford valley mining region for the first time late today, when Troop B, Fifth Cavalry, under Captain Tyler, lined the street in Hartford, while Deputy United States Marshal Tim Black arrested three miners.

The men were taken to Fort Smith by automobile, where they will be arraigned tomorrow.

DENVER MAY GET BIG FARM MEET NEXT YEAR

DENVER, Nov. 13.—Announcement was made today that the 1915 International Soil products exposition probably would be held in Denver. This formerly was known as the Dry Farming congress. The plans for meeting here were launched today at the chamber of commerce following a conference with Congressman F. W. Mondell of Wyoming, newly elected president of the exposition.

GEN. SCOTT NAMED CHIEF OF STAFF OF AMERICAN ARMY

WASHINGTON, Nov. 13.—Gen. Hugh Scott was selected by President Wilson today to be chief of staff of the United States army, upon the retirement, next Monday, of Major General Woodhull. The vacancy of major general created by General Woodhull's retirement will be filled by the nomination of Brig. Gen. Frederick E. Houston, now in command of Vera Cruz.

WASHINGTON, Nov. 13.—Major General H. H. Bliss will become chief of the single army division and, upon the retirement of Major General Mar. 193, on April 29, 1915, General Bliss will be appointed a major general.

CARLSON'S PLURALITY IS GROWING DAILY BY OFFICIAL COUNT

DENVER, Nov. 13.—The official canvass of election returns is completed in practically all counties of the state and certifications of votes are being received daily at the office of the secretary of state. With the exception of two or three of the measures voted upon, the results of which have been in doubt since election day, no material changes will be made by the official canvass, it is believed.

George A. Carlson, Republican, received a majority of all votes cast for governor, and his plurality is growing. His plurality to date is 3,538, and his majority is 6,848.

On the face of the returns to date Senator Thomas' plurality is 1,895.

With returns from two "dry" counties missing, the vote on prohibition amendment stands at 119,056 for and 108,822 against, the "dry" majority being 10,234.

The returns to date show that the statewide prohibition amendment, the good roads tax levy amendment, the bill abolishing the "Jesuit" doctrine assumption of risk and the initiative bill enlarging the powers of the state board of equalization are adopted.

The fate of the measure establishing a child welfare commission is in doubt. All others apparently are defeated by majorities ranging from 1,500 on changing the method of advertising initiated and referred laws to 40,000 on amendment No. 1, which sought to prevent the referendum of defeated measures for a period of six years.

U. S. WANTS TO KNOW WHO IS RESPONSIBLE FOR MINING NORTH SEA

WASHINGTON, Nov. 13.—An effort is being made by the United States government to ascertain officially who is responsible for the placing of mines in the North sea. This is one result of negotiations made to the state department by the governments of Denmark, Holland, Sweden and Norway that their maritime commerce with the United States had been paralyzed by the placing of mines outside of territorial waters in violation of The Hague treaties.

The United States was asked to join with these governments in an effort to have the warlike European powers place this danger to navigation. Whether it will do so or not is still under consideration. But, meanwhile, the inquiry is being made to determine the responsibility for the mine laying and to what government any representations on the subject should be addressed.

TWO CARLOADS FRUITS FOR STARVING BELGIANS

DENVER, Nov. 13.—Two carloads of apples and Mexican oranges will be given to starving Belgians by Miss C. D. Thomas, a wealthy ranch owner of Santa Fe, N. M. Miss Thomas arrived in Denver today and immediately advised Mrs. Agnes Chamberlain, the head of a Belgian relief fund committee appointed by local club women, that she would make the gift. The offer was accepted.

NURSE HELD ON CHARGE OF MURDERING BREWER

SAN ANTONIO, Tex., Nov. 13.—The arrest of Mrs. Emma Janschel on a charge of murder has added another chapter to the mystery of the murdered Otto Koehler, the millionaire brewer. Mrs. Emma Janschel, who admitted she shot Koehler, was arrested at her home immediately after the tragedy and is a prisoner-patient in a local hospital, suffering from a wound in her arm.

BRITISH CRUISER SEEN NEAR PANAMA CANAL

PANAMA, Nov. 13.—A warship, believed to be the British cruiser Suffolk, has been sighted 25 miles off Colon. She was steaming with lights out.

MORGAN COMPANY MOVES INTO \$5,000,000 BUILDING

NEW YORK, Nov. 13.—J. P. Morgan & company today moved into the building erected for the exclusive use at the southeast corner of Wall and Bond streets. The cost of the building and ground is estimated at \$5,000,000, and the building is believed the most expensive structure of its kind in the world.

The building is four stories high. Its exterior is of Tennessee marble, and its interior of foreign marble, finished with elegant appointments. The building is a part of the new office building for the J. P. Morgan & company. The day of the building was the day of the building.

11-'Stub' Davis, qb.....140	11-Mahoney, lb.....180
Average.....160	Average.....164

Open football and the forward pass are expected to predominate in today's classic at Washburn field, when the Tigers and their old enemies, the Denver university Ministers, clash in the annual game. The contest will start at 2:30 o'clock, the new hour established throughout the conference.

The Ministers, accompanied by about 200 rooters, will arrive here this morning on a special train over the Denver & Rio Grande railroad. Denver university headquarters will be at the Alamo hotel. Coach Buckingham of the Deacons last night stated that his team was in fair condition for the game, notwithstanding the terrific mauling his players received at the hands of the Miners last Saturday. He had a light scrimmage practice at University park yesterday afternoon for his squad.

The Tigers wound up their training last night with a signal drill. There were only two scrimmage practices during the week. Coach Rothgeb decided to give his bruised warriors a chance to recover from the effects of the Aggie contest of last Saturday. The Tigers are in better condition for this afternoon's battle than they were a week ago. Jack Taylor, who played through the Aggie game with a bad shoulder, and who suffered additional injuries then, is again in good condition and is being counted on for his usual smashing attack today.

Tiger Backs Faster.
The Tiger backfield will be a faster proposition today than it was on the last occasion that Springs fans saw it in action. 'Stub' Davis, the whirlwind quarterback, is scheduled to direct the destinies of the Tigers this afternoon, and the fans are practically assured of some startling runs unless the Loveland youth should happen to have hard luck. At left half will be found Verner, whose skill at open field running and skirting ends is second only to that of Davis. Verner is liable to fly his way for considerable yards. Jack Taylor will be at the other half and Schweiger at fullback. The husky German has been improving daily on his blocking tactics, and he has made some attacks during the week that look like winners.

The line will be the same as it has been all season. Captain Kramer and Van Stone at ends. Bagle and Garfield at tackles, Gorrich and Mack Davis at guards and Munnick at center. The line has played itself the best in the conference this fall, smearing the greater part of all attacks aimed against it.

Punting Duel Expected.
Probably one of the features of the game will be the punting duel between Buckingham of the Ministers and Mack Davis of the Tigers. Buckingham is one of the best athletes in the state and a punter who is classed along with Nelson of Illinois. He is dangerous as a good kicker from the 35-yard line or nearer. Mack Davis has been improving right along, and his punts are the tall affairs that give the ends and Rogles a chance to get down under them and to nab the safety man.

Open football is predicted from both teams, because the Tigers have found that open football wins for them, and the Ministers probably will be unable to win much by huddling their backs

backs against the Tiger front defense. Coach Buckingham of the Ministers, knowing the futility of using his punts backfield for line-mauling tactics, has developed an open game modeled along lines that Princeton is using this year. It includes several intricate forward passes, some double and triple passes and the Rocky pass, which has been pre-arranged throughout the east and the middle west, but not seen in the Rocky Mountain conference.

Pass Instead of Kicking.
Another feature that is liable to be introduced today is the forward pass out of bounds. This play was used by the Ministers against the Miners last Saturday, and consisted of a long pass out of bounds on the fourth down, which served instead of a punt. The rules say that a pass must not be grounded intentionally, but the play is worked by sending a man after the pass, with a chance of getting it, but largely for the sake of appearances. The Tigers have not used this play this season.

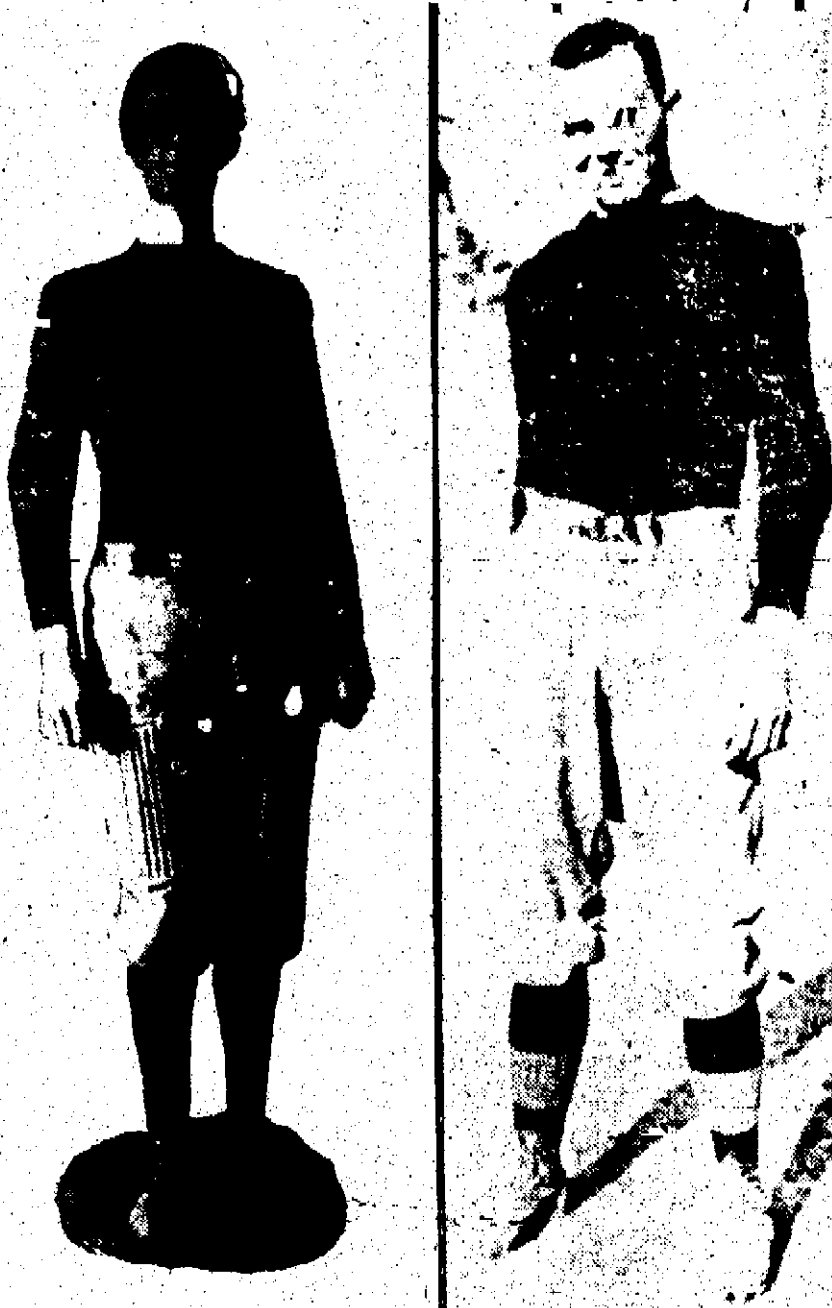

Wellington, the Denver tackle, who was out of the Mines game because of a bad leg, may be in today's contest, according to word from Denver. Last night he is a powerful player and will do much to bolster the Princeton line.

Taking the hope on the two teams and the season's records, it looks like a victory for the Tigers, and a victory by no small score. Rothgeb is anxious to win the game, and his team is a well-oiled machine. The Ministers have lost to the Aggies and to the Mines, but won from Kearney Normal by an overwhelming score. The Tigers lost to the State university by a score of 14-0, defeated Utah by a score of 14-0, and won from the Aggies by the score of 14-0.

D. U. Rooters Coming.
Indications point to a pretty game, however. The weatherman has promised a little cooler than the usual fall day, and the fans are expected to be in large numbers. The Tigers' fans will occupy their regular places in the east stands, while the Denver contingent will be in the middle section of the west stands. Both teams have some foreign students planned.

The weather will be in the 50's, with a breeze from the north.

A Pair of Strong Tiger Linemen

MACK DAVIS

"BUD" GARSIDE

The Tigers' rancor right guard and punter, whose work this season has been full of surprises. His punting has been a big factor in the Tigers' play, averaging 40 yards with his toe.

Right tackle, who, although playing his first year of college football, has shown good form, back of the slashing type of lineman, who never says die.

YALE-TIGER RATTLE HOLDS INTEREST ON EASTERN GRIDIRONS

Penn Meets Dartmouth, Harvard Plays Brown in Last Before Facing Elis

NEW YORK, Nov. 13.—Chief interest in the eastern football schedule for tomorrow centers in the Yale-Princeton game. From an offensive standpoint Yale appears to outclass Princeton, since each team the Blue has faced this season has been scored upon repeatedly with the exception of the strong Washington and Jefferson eleven, which won from the Elis, 13 to 0.

The Pennsylvania-Dartmouth game offers somewhat similar conditions upon which to speculate. Harvard faces Brown in the final game of the season before tackling Yale and because of the rather mediocre showing of the Browns this autumn little doubt regarding the outcome is felt at Cambridge.

The leading games of the east tomorrow, with the scores of last season where the same teams met, are as follows:
Yale at Princeton, 5-3.
Brown at Harvard, 0-37.
Dartmouth at Pennsylvania, 34-21.
Colgate at Syracuse, 35-13.
Virginia at Swarthmore.
Maine at Army.
Colby at Navy.
Trinity at Wesleyan, 14-0.
Williams at Amherst, 0-12.
Maryland Aggies at Georgetown.
Auburn at Lafayette, 0-7.
Massachusetts Aggies at Springfield, 0-14.
Pittsburg at Carnegie Tech.
Exeter at Andover, 59-0.

KANSAS MEETS NEBRASKA FOR VALLEY TITLE TODAY

Neither Team Has Been Defeated but Each Has a Tie; Missouri Plays Washington

KANSAS CITY, Nov. 13.—The football championship of the Missouri valley conference will be decided at Lincoln, Neb., tomorrow afternoon, when the undefeated eleven of the University of Nebraska and the University of Kansas meet in their twenty-first annual game. Neither team has been defeated this year, but each has a tie on its record.

Sailor Carrell Is Making Good in K. C.

According to word received here yesterday by Lawrence Josephberg of the Pike-Peck Pumps Co., "Sailor" Jimmy Carrell, the coast heavyweight, is making quite a reputation in Kansas City. Mr. Carrell, according to the letter received by Josephberg, fought a four-round match with Left Clark, colored, otherwise known as the "Joplin Ghost," winning the decision and \$200. The match was staged at the Orpheum theater, where Clark had offered to take on all comers on the four-round \$200 basis.

As a result of Carrell's winning the match, he signed on with Clark for a four-round battle to take place in the near future at Joplin. Mr. Carrell is being managed by Billy McArthur, who has announced that he will make a champion of the "Sailor."

TWO EASTERN TEAMS, CORNELL, CARLISLE, INVADE WEST TODAY

Big Nine Championship Will Be Partially Cleared, Valley Race Settled

CHICAGO, Nov. 13.—Tomorrow's football program in the central states and last year's scores:
At Urbana—Chicago (28) vs. Illinois (7).
At Ann Arbor—Cornell (0) vs. Michigan (17).
At Columbia—Washington (0) vs. Minnesota (21).
At Chicago—Carlisle (—) vs. Notre Dame (—).
At Lincoln—Kansas (0) vs. Nebraska (9).
At Ames—Iowa (45) vs. Ames (7).
At Columbus—Oberlin (0) vs. Ohio (0).
At Columbus—Washington (0) vs. Missouri (19).
At Evanston—Purdue (34) vs. Northwestern (0).

Western football approaches its climax tomorrow. The Chicago-Illinois and Wisconsin-Minnesota games will go far toward settling the conference championship, and Kansas and Nebraska meet in a contest of utmost importance in the Missouri valley race. Dividing interest with these games, Michigan and Notre Dame take on additional eastern teams, the former winding up its season with Cornell and the latter tackling the Carlisle Indians.

A gallant battle should be that put up by the Badgers and Gophers at Minneapolis. Critics are inclined to make Wisconsin the favorite in view of the Cardinals' strong game against Chicago and Minnesota's defeat by Illinois.

Ancient rivals clash at Ann Arbor, when Michigan and Cornell meet. This year one of the closest struggles between the two is expected, for the Ithaca team have been gaining rapidly in strength. Michigan's rout of Pennsylvania last week has made the Wolverine favorite and probably has given Yale's men a bit of confidence.

A spectacular battle is expected at Comiskey park, Chicago, in the meeting of Notre Dame and the Indians.

TIGER VICTORY TODAY MAY MEAN ELI'S DEFEAT BY CRIMSON ELEVEN

Princeton, Weaker Than Usual, Will Have Hard Fight, but Has 'Luck' on Its Side; Blue Line None Too Strong

Yale and Princeton will clash in their annual historic struggle today in Palmer stadium at Hightstown for the supremacy of the gridiron. Princeton has everything to win and little to lose. Her defeat at the hands of the Crimson eleven was disappointing and the game showed but little of her real strength. Yale has a great deal to lose, as defeat by Princeton would build up a spirit in Cambridge hard to beat. On the other hand if the Bulldogs can pile up a good score against the defenses of the people it will do much to humble Harvard. Princeton and Yale invariably have the closest of battles and the chances are that the skilled eleven will show enough reversal of form to give the bulldog a tough tiger steak to chew.

Yale has come through the last season with six overwhelming victories and one defeat, that by W. & J. Sky a score of 7 to 12. In this game the Blue team showed a complete reversal of form and was outplayed in every department of the game. A touchdown in the first quarter was the only score made by the Blue.

Princeton evidently suffered from stage fright in their annual meet with Harvard, and could do nothing against the line plungers and runs of Logan, Franck, Bradley and Hardwick, who penetrated the line at will. Princeton has done too strong an eleven this year and will have to show a great deal of improvement to give the Eli delegation a hard fight.

Yale has gathered together 158 points to her opponents' 31 during the season, and probably would have added several more tallies with a first-string line of backs in the Brown game. With Kearney, Leflore, Knowles, Wilson, Alpersworth, MacLish, Sevel and several others in the backfield, the Princeton wall will have a hard time stopping the Blue.

On the other hand, Yale has not a seasoned line, although Captain Tibbot has been a tower of strength. It seems that the outcome of the Princeton and Harvard games will depend more than a little upon the Eli defense. If the line can do its share, the stellar secondary defense will prevent any mishaps and trick plays. The line is a matter, however, that is worrying a great many football fans. If it does not hold, Princeton may have a gold mine of points to add with something in the way of a touchdown. Captain Tibbot, looking for a touchdown, may be a good deal better off than he was in the Aggie freshmen game. They were met by several former Springs High school students. According to members, the team is in perfect condition. The regular lineup will start the game tomorrow for the high school players.

The Terrors are held in considerable esteem by the infants of the former school. The Colorado Springs players always have had fast and heavy teams. However, today they will meet a team considerably heavier and recognized as one of the speediest freshmen elevens in the state. The Aggie freshmen are all big players who have been given special training this season and expected to defeat the Terrors by a good sized score.

Coach Goodell tonight said he expected to use his heavy backs, Gray and Richardson, on hitting the line, and his fast ends, Ahl and Vangho, in the forward pass. Open play is expected to predominate on the Terrors' part, however, owing to the weight and strength of the freshmen team line.

MINES AND C. U. IN TITLE TILT TODAY

Boulder Is Favorite, but Will Have Hard Time With Blue Line

Little Rock—University of Mississippi, 13; University of Arkansas, 7. Manhattan, Kan.—University of Oklahoma, 52; Kansas State Agricultural college, 10. Oklahoma, Ind.—Monmouth, 39; Penn college, 6.
